FOOD PROCESSING INDUSTRIES

— Engineered to Taste, Built to Last —

Engineering Excellence Since 1986

A.S. Engineering Works has been delivering reliable and high performance food processing and extrusion machinery. We specialize in designing and manufacturing customized solutions for snack, pasta, vermicelli, soya, and feed processing industries. **As a milestone in our innovation journey, we developed India's first 500 kg Kurkure Extruder, reinforcing our commitment to engineering excellence.** With precision engineering, quality manufacturing, and dependable after-sales support, we help businesses achieve efficient and consistent production.

Our Mission

To design and manufacture innovative, durable, and efficient food processing machinery that empowers manufacturers with reliable, high performance production solutions.

Our Vision

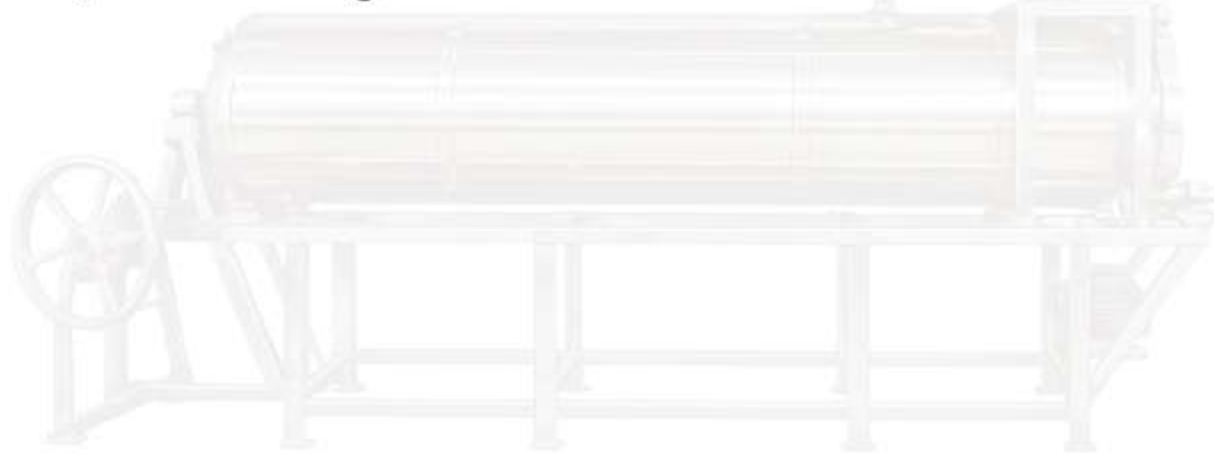

To become one of India's most trusted and preferred manufacturers of food processing and extrusion machinery through continuous innovation excellence, and customer-focused solutions.

Our Commitment

- ✓ Precision Engineering
- ✓ Food Grade Construction
- ✓ Customized Machines
- ✓ Energy Efficient
- ✓ Reliable Support

Our Leaders

At A.S. Engineering Works, our journey has always been guided by innovation, trust, and a passion for engineering. With decades of experience in food processing machinery, our founders continue to lead the company with a clear vision delivering reliable, customized solutions that help businesses grow with confidence.

BUILT ON TRUST. DRIVEN BY PURPOSE.

For more than four decades, A.S. Engineering Works has been helping food manufacturers with reliable, high-performance machinery. Our commitment to quality, innovation, and customer satisfaction continues to drive everything we do.

“

Every machine we build reflects our commitment to quality, innovation, and customer success.

MR. AKHTAR ALI KHAN

Founder & Director

“

Innovation drives our progress, and quality defines every solution we deliver.

MR. IMRAN ALI

Chief Executive Officer

Our Machinery

Variations

At A.S. Engineering Works, we design and manufacture high-performance food processing machinery engineered for precision, reliability, and long-term performance. From material handling to complete processing solutions, every machine is built to meet the highest industry standards. Every production requirement is unique. That's why all

"INDIA'S FIRST 500 KG KURKURE EXTRUDER, REINFORCING OUR COMMITMENT TO ENGINEERING EXCELLENCE"

PRECISION ENGINEERING

Engineered for accuracy, consistency, and reliable performance.

DURABLE & RELIABLE

Built to deliver long-term strength and dependable operation.

HIGH PERFORMANCE

Designed for maximum productivity and superior output.

ENERGY EFFICIENT

Lower power consumption with optimized operating efficiency.

100% CUSTOM-BUILT

Customized to match your exact production requirements.

Engineered For Every Product

Every successful product begins with reliable engineering. Our processing machinery is built to manufacture a diverse range of snack, vermicelli, pasta, and protein based products with precision, consistency, and long time performance.

Snack Products

Extruded snacks including Kurkure, Fryums, Corn Puffs, and much more.

Pasta Products

Production solutions for Pasta, Macaroni, Penne, and Vermicelli other specialty pasta products.

Protein Products

Reliable processing for Soya Chunks and Soya Nuggets with consistent texture and quality.

Cereal Products

Efficient manufacturing of Corn Flakes, Rice Puffs, and other cereal-based food products.

Let's Build Together

Thank you for exploring A.S. Engineering Works. For over four decades, we have been delivering reliable, high-performance food processing machinery designed to meet the evolving needs of the industry. Every solution we build is engineered with precision, customized to your production requirements, and backed by dedicated after-sales support.

Let's build efficient, reliable, future ready food processing solutions **TOGETHER!**
